PROFESSIONAL OVERVIEW

Works with people of all socioeconomic backgrounds, including those incarcerated and/or previously incarcerated, those in recovery, or those with mental health diagnoses to help them empower themselves and achieve optimal health.

Effective communication, interpersonal, demonstration, and presentation skills. Well-organized, self-motivated, self-confident with a composed nature.

Clinical Researcher who has 2 preprints, 1 case report, 1 mixed method, with a few publications pending or in various stages of the research process. All research conducted is based on holistic, integrative, and functional modalities that look at mental health, veterans, BIPOC, and LGBTQ+ communities as a means for further understanding and supporting these communities through these modalities.

Motivational and Clinical interviewing skills; Public speaking and teaching

Menu planning; Whole food cooking and demos; Creating spice blends; Herbal remedies. Offer nutritional recommendations and resources; Create educational handouts.

HIPAA compliance; Case analysis and management; Assessing macro and micronutrient insufficiencies and excesses; Assessing drug-nutrient interactions; Analyzing lab results; Nutrition Focused Physical Exam skills.

Personalized nutrition and lifestyle plan for health maintenance and optimization; Knowledge of many popular diet plans; interpretation of current research and traditional wisdom to create personalized nutrition care plans.

Nutrition assessment (health history, biochemical and laboratory assessment, anthropometric evaluation, the impact of diet on health, motivation level, genomics, and identifying clinical status) with appropriate clinical intervention and monitoring.

Provide ongoing monitoring and feedback to clients to adapt to their goals and needs.
